

# Stronger Together

## Small Groups

5.21.20

Water of Life Family,

The planning is in motion for reopening our weekend services. Pastor Dan and leadership are working diligently to make this happen soon. We know that many of us cannot wait to enjoy gathering together and many of us are looking forward to having fellowship with people in our WOL family. Small Group Ministry is working hand in hand with leadership to make this happen. Our church family will need small groups more than ever as we, day by day, move towards coming together. We know that nothing contributes to the well-being and life of a believer quite like growing with a small group of other believers. That's how the church at large began and that's how Water of Life began.

Small Group Ministry plans to implement three phases for groups gathering together. The first phase is online; second phase will be in our backyards or other outdoor spaces; and then finally, phase three gathering in our homes. If you would like to be part of the Small Group Team and part of helping us with our reopening plans, please fill out this short form: [SG New Leader Interest](#), and we will connect with you as soon as possible to get the process started.

We are looking forward to hearing from you,

Your Small Groups Team
